

**An update from our Ennismore Eagles Executive on the planning process for the 2020-2021 hockey season.**

**First and foremost: based on current conditions, and unless circumstances in Ontario significantly change over the summer, we are confident that our players will be on the ice in September.**

As we move closer to September, we hope to provide a more in-depth plan regarding all aspects of the hockey season regardless of age division or level of play. Our current challenges are offering the sport of hockey while observing our new health guidelines such as maintaining social distancing and the number of people who are allowed to gather. There are new procedures that will need to be implemented such as separate entrances and exits to facilities, dressing room use, health screening, use of masks, spectators etc.

Currently the information we are receiving leads us to believe that the start of Representative/Tier 1 hockey will be postponed until it is deemed safe to resume. We are looking into many options in order to get our members returning to the ice in a safe way to have them benefit from the physical and mental benefits that hockey has to offer.

Our September development program and return to play process will be communicated as soon as possible with more details and answers to the many questions our members have. We are awaiting an update from OWH (Ontario Women's Hockey Association) in the near future. Currently we are working with Selwyn Township on Ice options.

**Our goal right now is to open registration on August 7<sup>th</sup> so that we have an idea on how many players plan on playing hockey with the Ennismore Eagles this coming season. Please register on the website.**

We know there are many questions to be answered, we thank you for your patience and support. We are very hopeful to have the kids back on the ice in a safe and enjoyable way come September and we all can work together to make this happen.

Thank you  
EGHA Executive
